DIVED TO HIS DEATH

Fatal Accident to Briskey of the Savannah Base Ball Team.

DEATH AGONY WHITENS HAIR

In the Full Sight of Thousands, Baseball Player Meets With Fatal Accident on the Beach at Tybee—Leaves Wife and Child.

Savannah, Ga., Sept. 3.—In the sight of scores of bathers, Joseph F. Briskey, right fielder of the Savannah team in the South Atlantic base ball league, died on Tybee beach on Sunday afternoon as a result of a dive into shallow water in front of Bohan's pavilion, his neck having been broken.

Briskey was an excellent swimmer and his statement that he intended to remain under water as long as possible prevented any aid being rendered him for several minutes after he had dived, leaving his body, lying on the sand beneath the surface of the sea, was plainly visible to the bathers who were literally watching him die.

Sadder than the death is the fact that the young wife and three-weeks-old baby of the ball player, who had never seen his child, were awaiting his coming at the season's end in Houston, Tex. They have been notified by telegram of the accident.

With the ball player at Tybee were Umpire Harry Mace and King [illegible] and Howard, all of the Savannah team. All of them aided in the effort to revive Briskey after the onlookers, alarmed by his long stay, at last drew him up to find him dead.

Artificial respiration was tried, but without effect.

A remarkable feature was that Briskey's dark hair was found to have turned almost white during the time he was in the water. It is thought he must have known of his fate, and his suffering caused this change.

Young Jack Apple, of this city, was almost killed in the same way at Tybee this season. He will be a paralytic for life, it is feared.

A benefit performance for the widow of Briskey will be given Thursday at the ball park.

PATIENT CRAZED BY GAS.

Dentist Had To Use Hammer on the Man's Head.

Washington, D.C., Sept. 3.—While under the influence of gas preparatory to having a tooth extracted, George W. Bowers, aged 28, jumped from the chair, and violently attacked Dr. R. B. Leonard, severely beating and knocking him down.

The doctor's call for help brought Dr. W. H. Hunter, who was treated in a similar fashion. Fearing that his life was in danger, Dr. Hunter reached for a small hammer nearby, and used it freely on Bowers' head, causing a compound fracture of the skull.

Bowers was taken to the Emergency hospital, and Dr. Hunter was arrested. He was released in $1,000 bail.

During the struggle between the three men Bowers' wife and a number of women patients were thrown into a panic, and took flight.

Bowers will recover.

Actress Takes Her Life.

New York, Sept. 3—Mrs. Grace L. Bothner, wife of Augustus Bothner, a theatrical manager, committed suicide at her home in this city by shooting. She had been in ill health for some time. Mrs. Bothner was 35 years of age. Before her marriage she was Grace Vaughn, an actress, who was widely known in the theatrical world.

Was Killed by Burglar.

Mobile, Ala., Sept. 3—A well known young man was shot to death here Sunday morning by an unknown burglar. Byrd volunteered to sleep in the suburban store of a friend, which had been robbed several times lately. When the burlar appeared Byrd showed resistance, and was killed with a shotgun.

MONEY-KIRBY FEUD.

Killing Caused Profound Sensation in Mississippi Political Circles.

Jackson, Miss., Sept. 3.—The news of the Money-Kirby feud at Money Station, caused a profound sensation in political circles here, owing to the prominence of the families involved, and general knowledge of the fact that trouble had been anticipated for some time, bad blood having existed between the two families since the killing of L. G. Henderson by J. D. Money, Jr., about one year ago.

Governor Vardaman was very much shocked over the tragedy. Colonel Money having been his most intimate friend since the days of their boyhood.

The double tragedy has occasioned no surprise among those acquainted with the two families, and who had knowledge of the ill-feeling engendered by the killing of Henderson by young Money last autumn. R. L. Kirby, a brother in law of Henderson, charged with much bitterness that money was freely used and family influence exerted to save the young man from the gallows; that the killing was a cold-blooded assassination, his brotaer in law being shot in the back, and that the outcome of the trial was a travesty on justice.

From what can be learned from the scene of the crime, the first report that the Moneys had been ambushed is without foundation. Colonel Money and son and R. L. Kirby and son met on the public road. All were fully armed, and each man was expecting trouble. The Kirbys were the quickest to get into action, young Kirby's first shot killing J. D. Money, Jr., instantly.

That the trial at Greenwood six months ago, which resulted in young Money's acquittal, provoked the shooting is beyond all question of doubt. The ablest attorneys in the state were employed to defend the youngster, and the trial was fraught with much bitterness and family feeling.

Mrs. Henderson, a woman of striking beauty, declared that she would spend every cent she had to send her husband's slayer to the gallows and it is stated that she even sacrificed her jewelry to employ counsel to aid the prosecuting attorney.

Sues for Loss of Beard.

New York, Sept .3.—George Palmer, a wealthy farmer, at Parksville, N. Y., has brought suit for $2,000 damages in the supreme court against John J. Reisler, a proprietor of a barber shop, at 8328 High street and Broadway. Palmer's grievance is that his beard, of which he was quite proud, was cut off by one of Reisler's employees. Palmer fell asleep in the barber's chair, he says, after having told the man simply to trim his whiskers, but the barber sheared off all the whiskers and then shaved his face. The application of a wet towel on Palmer's face awoke him, and when he realized that his beard was gone, he sought a lawyer instanter and brought suit at once.

Tickets Sell for 2½ Cents.

Montgomery, Ala., Sept. 2.—For the first time in the history of the state, railroad tickets are being purchased for 2½ cents a mile. Never before has the fare been less than 3 cents. Rates have also been reduced on 110 commodities of general use in the state. Heretofore the rates have been very low on all industrial territory needs and products, so that with the reductions in the bills just put in there comes to the state a general rate as low possibly as any other in the south. The laws are enactments of the recent legislature, and put in by agreement while they are being tested with regard to their constitutionality in the federal court.

David P. West Passes Away.

Montgomery, Ala., Sept. 3.—David Putnam West is dead at his home here. Mr. West organized and backed the first electric car system in the city of Montgomery, which is declared to have been the first in the world. Vanderpool, the inventor, impressed Mr. West, who had him bring his experiments to Montgomery. West was best known in the south as a hotel man, he having been proprietor of the old Exchange hotel here twenty-two years. He was a native of Fort Hill, Boston, Mass., and was 7 years old.

LEFT TRAIL OF DEATH

Grim Harvest Reaped by Fast Speeding Autos.

SIX PERSONS ARE KILLED

Sunday Was a Day Memorable for Automobile Accidents—Among the Killed Were Several Little Children Who Met Untimely Deaths.

Brescia, Italy, Sept. 3.—The automobile race for the Florio cup was run Sunday, and was won by an Italian named Minora.

The weather was fine, and a large assemblage saw the race. The contest was marred by several accidents, in one of which Baron De Martino was killed.

Thirty-four competitors lined up at the starting point, twenty-three Italians, seven Germans and four Frenchmen. The contest was run under German rules. The course was 8 miles around a circular track and the total distance traversed was 486 kilometers.

The first few rounds were without incident and then Henri Fouriner's machine broke down.

The first accident, which was serious, occurred to the German, Mr. Nieranymus, who, while trying to pass another competitor, ran into Termasell, driving a German car. Nieranymus sustained a fracture of the nose and the automobiles were smashed to pieces.

The second accident occurred to the German, Durlacher, who missed a turn of the road and ran off a railroad bridge. He was badly injured.

The fatal accident took place not far from the grandstand. The steering gear of the car driven by Baron De Martino broke while going at a fast rate of speed. The car ran off the road, the baron was thrown with fearful force against a tree and instantly killed.

Two Men Killed in Auto Smash.

Magenti, Italy, Sept. 3.—The Marquis Pallavacini and a lawyer named Nalamo were killed in an automobile accident Sunday. Their chauffeur, not noticing the gate at a grade crossing was closed, ran his car through the gate and onto the tracks just as a freight train bore down on them. The machine was wrecked and Nalmano was killed outright. The marquis died a few minutes later.

Boy Killed by Auto.

Jamestown, N. C., Sept. 3.—The 4 year old son of Albert Reynolds, of Ripley, was struck by an automobile Sunday and instantly killed. The automobile was trying to avoid the accident and ran into a ditch.

1 Killed, 4 Hurt in Auto Crash.

Elmira, N. Y., Sept. 3.—A powerful touring car plunged over a 15-foot embankment at Pine City, near Elmira Sunday, killing H. B. Smith, of Toga, Pa., and injuring four others. One of the injured men, John Henry, of Canandaigna, is confined in the hospital, where fear is expressed that he will not recover.

Auto Racers Kill a Girl.

Willbraham, Mass., Sept. 3.—An automobile containing Mr. and Mrs. Sumner R. Hollander, of Boston, ran down and killed Sunday the 12 year old daughter of Mr and Mrs. James W. Loser, at Palmer. Mr. Hollander was held for manslaughter.

LABOR DAY IN ATLANTA.

Parade Eclipsed that of Any Previous Occasion.

Atlanta, Sept. 3.—The Labor day parade surpassed any of its predecessors in Atlanta.

There were more men in the line of march, more bands and more floats than have been shown on a similar occasion.

Every detail for the day had been perfected, and no one in the city was in the least disappointed with the event.

The parade formed in the vicinity of the state capitol at 8:30 o'clock and at 10 the long line was in motion.

JUDGE THINKS STATE OBEYS.

Says the People of Alabama Have Undergone a Change.

Montgomery, Ala., Sept. 3.—In discharging the grand jury in the U. S. court Saturday, Judge Thomas G. Jones referred to his remarks in calling them together at which time he told them they were to ferret out and indict any who tried to defy the orders of the court by attempting to enforce state laws that are now enjoined.

He said that the people have undergone a change of mind, that there is now no active resistance to the orders of the court, and he thinks there will be none. He said the court had called upon the people to support the laws of the land and its court, and that they have needed it. Among other things, the judge said:

"There is no longer insistence that the rights of suitors in this court shall be decided elsewhere, but there is insistence that the orders of this court, no matter how distasteful they may be to some, shall be respected until they are set aside or reversed by some higher court that has rightful supervision of this court."

In another place the judge said:

"It was the duty of the court to point out to those who might not listen to reason the evil consequences to them and the good name of our state from open resistance to the processes of the court or direct efforts to defy its orders."

The reference of the judge is to his charge to the jury some days ago incident to the threat on the part of the state officers that they would prosecute and arrest for violation of state acts, even if they are enjoined by the federal courts.

DID NOT HEAR WHISTLE.

Man and Woman Killed by Train Near West Point, Ga.

West Point, Ga., Sept. 3.—F. M. Johnson, aged 57, a successful farmer living near here, and his daughter, Mrs. J. H. Bullen, 33 years of age, of Rock Mill, Ala., were struck by the eastbound westibuled train on the Atlanta and West Point railroad just west of here Saturday night and both were instantly killed.

The accident occurred at Hill crossing, 2½ miles south of West Point. Apparently the couple, who were riding in a buggy, did not hear the repeated shrieks of the engine whistle; which, it is stated, were blown.

The engine hurled the buggy and its occupants several feet, and the bodies of both Mr. Johnson and Mrs. Bullen fell on the front part of the engine.

The bodies were brought here by the train which caused the accident.

Mrs. White Denies Report.

New York, Sept. 3.—Mrs. Stanford White, widow of the architect who was shot and killed by Harry K. Thaw, on Madison Square Roof garden, has denied the report that she is to be married to Mr. McKim, of the firm of McKim & Waite, of which her husband was for many years a member. Mrs. White returned to New York Saturday on the steamer La Lorraine, after several months' visit to Italy. When asked regarding her reported approaching marriage to McKim, she said it was entirely untrue. "There is absolutely no foundation for such a report," said she. "It was cruel for any one to say that."

Shah's Premier Assassinated.

Teheran, Sept. 3.—Ali Asghan, premier and minister of the interior, was shot and instantly killed as he was leaving the national council Saturday night. Two soldiers were also killed at the same time, and another man was shot in the leg. One of the assassins committed suicide. It is believed that the effect of the news of the murder of the premier added to the interior troubles will be disastrous and that anarchy will gain in strength.

THREE PEOPLE DROWN

Moonlight Boat Ride on St. Johns River Proves Disastrous.

TWO ATLANTANS IN PARTY

Craft in Which the Party Was Seated Careened, Throwing All the Occupants into the Water—Two Cling Together and Drown Embraced.

Jacksonville, Fla., Sept. 3.—Edward Winner, chief clerk of the Duval hotel, and Misses Lillian and Bertha Ballum, said to be from Atlanta, were drowned in the St. John's river Saturday while out on a moonlight launch ride.

The cabin of the little craft being somewhat stuffy, Winner and three of the young ladies in the party took seats on the canopy top of the launch while others in the party remained inside.

Scarcely had the young ladies taken seats than the launch capsized and turned over, throwing all occupants into the water.

In their frantic fight for life, the girls caught Winner, shoving him beneath the water, the trio drowning together.

PROHI FIGHTH IS ON.

Birmingham To Vote on Whisky Question in November.

Birmingham, Ala., Sept. 3.—Birmingham, the south's greatest [illegible] trial and iron center, is in the throes of the first prohibition fight in its history.

The election will be held in November under the option laws passed by the legislature.

Already the campaign has reached the stage of bitterness and acrimonious invitation, and present indications are that the so-called "emotional" element will sweep everything before it, including the whole of Jefferson county, containing $119,074,035 worth of taxable property, prohibition after Jan. 1.

Served Road Forty Years.

Springfield, Ill., Sept. 3.—W. B. Barnes retired Sunday from the service of the Wabash railroad, having been for forty years superintendent of the locomotive and car department of the road. Barnes retires of his own volition and will take up residence with Mrs. Barnes at Fort Wayne, Ind., where he has extensive property interests.

Several Cars Destroyed, but Two Persons Injured.

Tusla, I. T., Sept. 3.—St. Louis and San Francisco train No. [illegible] Texas fast mail, running between St. Louis and Sherman, Tex., plunged into a burning bridge near Tusla Friday night.

The engine, combination baggage express and mail car and one passenger car, together with all mail, baggage and express, were destroyed.

C. H. Lowell, Tusla, and A. Anderson, of Denison, Tex., were dangerously injured. The train was running at a fast rate of speed when the engineer saw the light in the distance. He attempted to stop, but it was too late. Together with the fireman he saved himself by jumping.

This is the fourth wreck in the vicinity within a week. Railroad officials believe that a gang of train wreckers are at work.

Contractor Beeman began within ten days after the bid had been awarded, and has been working steadily ever since. He has a good force of men who understand their business, and feels confident that he will finish the work easily within the time prescribed by the contract.

Mr. Beeman was the successful bidder for the extensive system of street sewerage. He did an excellent job on this work, and the same will no doubt be true of the contract he now has in hand.

HON. J. N. C. STOCKTON.

Capt. John B. Johnston, editor of The Pasco County Democrat, has the following to say concerning the prospective candidacy of the above gentleman for Governor:

"From recent utterances by Hon. J. N. C. Stockton it is probable that he may enter the gubernatorial race. While it is true that we and Mr. Stockton have trained in different political camps and have been arrayed against each other in the great political battles of the State for the past twenty years, yet our personal relations have always been of the kindliest and most friendly nature. We do not hesitate to assert, with all possible emphasis, that in our humble judgment there is no man in the State better equipped for the office of Governor, nor one who would give to the people of Florida a cleaner or more beneficial administration of the State's affairs. He possesses in a degree that is worthy of emulation by us all 'that humanity that meets in every man a brother,' that sympathy which enters with warmth into the feelings of others, that friendship which flows with generous emotions and binds us to those we love with indissoluble ties, that charity that puts on every action and appearance the most favorable interpretation, that philanthropy that feels with quickness the distress of others, and that spirit of justice that accords to all their due. Mr. Stockton has set a noble example to the young men of this State, of diligence in business, of truth and devotion to principle and justice, honesty and uprightness in all his conduct toward his fellow man, and in public life, which is the basis of our social connections. He has filled many important positions, and he met and performed the duties of each in a manly, straightforward, honest way. Should he be elected Governor we know that he will enter upon the duties of the office with as pure and patriotic emotions as ever animated the human breast. During his political career many questions of grave importance have enlisted public attention. Titanic struggles have occurred between warring factions in this State, who differed as to men and policies. His attitude with respect thereto was the attitude of his party, and he was ever at the fore in the assertion and maintenance of that party's principles. All honor to him for that. All honor we say always to the man of strong and honest convictions, who has the courage to stand by them. In the assertion and maintenance of his convictions Mr. Stockton has ever been a leader. He possesses the elements of leadership. He is bold, aggressive, logical, convincing. He is as brave in defeat as in victory. We do not say that he is always right. We do not say he has no faults. Far from it. He is a strong man, and gentle, and his faults, such as they are, are overborne immensely by his virtues. We do say that as Governor of the State he will adequately meet every demand upon him, conscientiously perform his public duties, and give us an administration of, for and by the people. What more do we want?"

Secretary Cortelyou's new method of relieving the financial situation seems to consist in scattering the money around so that Wall Street will have to go after it instead of handing it all to them in a lump.

Congressman Frank Clark and Bill Lamar are agreed upon at least one question—they both desired to get rid of the Philippine Islands.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonals.

SERMONETTES

BY J. MARVIN NICHOLS

We all have more or less of the Bohemian inclination. Curiosity frequently leads men and women of unsullied reputation into very strange places. They go without the thought of despoilation. Some folks have the instinct to go a-slumming.

A woman may paint like Raphael, play like Paderewski, or sing like Florence Nightingale—but can she cook? Can she cook—that's man's eternal question. These creatures who are experts in turning out soggy biscuits have strung more scalps than all the wars in the history of the world. There would be a deal more room in the graveyards had it not been for our imaginary troubles and the woman in the kitchen.

Clerk of the Circuit Court S. H. Wienges has received the printed copies of the Acts of the Legislature of 1907, but they are absolutely worthless. Pages 321 to 336 inclusive are omitted, and pages 289 to 304 inclusive are repeated in different parts of the book, while in another part of the book, the number of pages skips from 304 to 337. Mr. Wienges has written to Secretary of State Crawford that the copies are subject to his order. If the copies sent out to the other counties are in similar condition the whole edition will have to be returned to the State printer, taken apart, properly put together and rebound, which will occasion another delay before the laws can be placed in the hands of the officials of the various counties.

The winter season will soon be upon us. So clean up your premises and paint your houses and fences.

DYSPEPSIA

"Having taken your wonderful "Cascarets" for three months and being entirely cured of stomach catarrh and dyspepsia, I think a word of praise is due to "Cascarets" for their wonderful composition. I have taken numerous other so-called remedies but without avail and I find that Cascarets relieve more in a day than all the others I have taken would in a year."

POLITICAL GOSSIP FROM WASHINGTON

Republican Differences Contribute to Democratic Success.

THE DEMOCRATIC CONVENTION

May Be a Lively Affair—President Roosevelt Again in Role of Peacemaker—"Old Ironsides" to be Taken to Annapolis.

Special Correspondence The Daily Sun.

Washington, D. C., Sept. 3.—"Our friends, the enemy," have contributed most largely to the gayety of nations during the last week by a public exposition of their differences, differences which, if properly handled, should make for Democratic success at the polls in November, 1908. Speaker Cannon, who insists that he is "seventy-one years young," has announced his candidacy for the Presidency, and at the same time has bid defiance to the President by emphasizing the great prosperity and declaring that it would be a "crime" for Congress to do anything which would upset the business of the country. Business, as Mr. Cannon uses it, always meaning the tariff and the protected industries. Politicians in Washington understand the Speaker's words, moreover, to be a warning to the President that he will have none of the proposed extension of the railway regulation laws, tariff revision or other legislation which would prove obnoxious to the interests which support the wing of the party which Mr. Cannon represents.

Secretary Taft is still making professions of faith on his way West, and is endorsing most of the President's policies, much to the chagrin of the conservative faction of the Republican party, which had hoped that Taft, who seemed most likely to get the nomination, would get behind the breastworks of Republicanism and refrain from the "radicalism" which has marked the Roosevelt era. Out in Ohio, Foraker is making frequent speeches condemning the President for forcing him and others to pass the railroad rate law, which is so obnoxious to Mr. Foraker's railway affiliations, and denouncing the President for dismissing without honor the negro soldiers of the 25th Infantry, a denunciation which is of course an appeal to Ohio's 100,000 negro voters.

The Navy Department has decided to bring "Old Ironsides," in other words, "the good ship Constitution," down to Annapolis where, it is believed, it will be an object lesson in patriotism to the "middies" who are preparing to serve their country as officers in the navy. The old ship was almost going to ruin in the Boston navy yard, when Senator Lodge secured the passage of a bill appropriating funds for the recaulking of her seams and the restoration of her upper works. Of course, the Senator expected that the ship would remain in the Boston navy yard, and his work in Congress was loudly applauded in his home city, but the docks of the navy yard are crowded and the department has decided that the ship will serve a better purpose at the training of the navy, where there is ample room in the comparatively peaceful waters of the Chesapeake, and as soon as the work of rejuvenation is completed the old vessel will be towed South.

The President has once more essayed the role of peacemaker, this time attempting to bring order out of the chaos which for some time has existed in the Central American countries. In conjunction with President Diaz of Mexico, President Roosevelt has addressed a telegraphic note to the President of Honduras, Nicaragua, Salvador, Costa Rica and Guatamala, begging them to meet in a peace conference and adopt a joint treaty binding all five to submit to arbitration any differnce which cannot be settled by diplomatic negotiations. The two executives promise the good offices of their respective countries to assist in this praiseworthy move, and will doubtless act as arbitrators, if so desired. The President and Secretary Root have long contemplated some such move as that now taken, but they waited until they had diplomatic assurance that the suggestions would not prove unwelcome to any of the powers addressed. Recent information, coming from unofficial sources, to the effect that Nicaragua was again preparing an expedition against Salvador, led to the dispatching of the note by telegraph.

The Hon. James Campbell of Ohio is authority for the statement that Alton B. Parker will again be a candidate for the Democratic nomination, next year. Mr. Campbell says he was sceptical regarding the accuracy of the report at first, but that he has satisfied himself that it is correct. Mr. Parker is reported to be receiving an income of $50,000 a year from the law firm with which he is associated, but doubtless $50,000 a year and occupancy of the White House, rent free for four years, would prove a good deal more attractive.

The friends of Hon. Charles A. Towne are trying to start a boom for that versatile citizen for the Presidency. They have not made much headway thus far, but they insist that he is the most likely candidate in the field, and Washington correspondents can have any amount of material telling why this is so, for the asking. It is to be hoped that there will be some available candidate before the convention besides Mr. Bryan, just to make it a genuinely lively Democratic convention. Of course, Mr. Hearst will be there with the support of the Independence League, and doubtless there will be enough doing to make it interesting, and not such a cut and dried affair as was the Republican convention of three years ago.

MOTHERHOOD

MRS. DANIEL SULLIVAN

Unquestionably preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound more successfully than by any other medicine, because it gives tone and strength to the entire feminine organism and renders it perfectly normal.

A woman in good physical condition transmits to her children the blessings of a good constitution. Read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sullivan, 589 E. 7th Street, Flatbush, N. Y.

"What a blessing Lydia E. Pinkham's Vegetable Compound is to motherhood. I send you a picture of my three months' old baby and myself, and the photo shows the splendid condition of our health. That I am so well and the baby so healthy and happy is entirely due to your excellent remedy Lydia E. Pinkham's Vegetable Compound. I took it for five months before baby came and it brought me an easy confinement and kept me strong, whereas I was weak and in perfectly miserable health all the time when my first three children were born."

Mrs. Geo. Walters of Woodlawn, Ill., also writes:

"I feel it my duty to tell of the good Lydia E. Pinkham's Vegetable Compound has done me and to recommend it to all expectant mothers to insure a healthy child and easy birth. I had lost three children and was discouraged when a friend advised me to try Lydia E. Pinkham's Vegetable Compound. I did so and it not only kept me well and strong but I have as healthy a child as you will find anywhere. I hope other discouraged women may read this letter and take Lydia E. Pinkham's Vegetable Compound and be benefited by it as I have been."

Women should remember that for more than thirty years Lydia E. Pinkham's Vegetable Compound has been without a rival in sustaining women's health and curing all those painful ailments peculiar to her sex. Its record shows that it has cured almost every form of female complaint, organic troubles, inflammation and ulceration, falling and displacements and consequent spinal weakness, and is peculiarly adapted to the periods of child-birth and change of life. It cures backache and all those bearing down sensations.

If there is anything about your case you do not understand write to Mrs. Pinkham, Lynn, Mass., for advice. It is absolutely free. Thousands of women have done so and have received help.

LaGRANGE MAN SUICIDES.

Porter Hannah Shoots Himself in the Mouth and Dies.

LaGrange, Ga., Sept. 3.—Sunday about 1:30 o'clock Porter Hannah, a young man employed at the LaGrange mills, committed suicide by placing a pistol in his mouth and firing, the ball going through his brain. This was his third attempt.

Hannah was sitting on his front porch steps, talking to his wife, when he asked her to go and get a piece of paper, that he might write a note.

Before any one could reach him, he had killed himself. His wife had become alarmed at his actions during the past few days, and had told the members of her household that her husband was threatening to kill himself.

Hannah was a young man, about 28 years of age. He left a wife and one child.

The deceased was a son of Matt Hannah, of Longsdale, Ga.

Attack of Diarrhoea Cured by One Dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

I was so weak from an attack of diarrhoea that I could scarcely attend to my duties, when I took a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It cured me entirely and I had been taking other medicine for nine days without relief. I heartily recommend this remedy as being the best to my knowledge for bowel complaints.—R. G. Stewart, of the firm of Stewart & Bro., Greenville, Ala. For sale by all druggists.

Photographed 1,000,000 Times.

London, Sept. 3.—Who is the most photographed person? His followers claim this distinction for General Booth. Since the general started on his motor tour through England and Wales three weeks ago he has been photographed more than 4,000 times. According to a count made by an official accompanying him the daily average of snapshot portraits exceeds 300. "If all the photographs ever taken of General Booth were brought together, said an officer, 'there would be probably a million different pictures in it.'" So great became the number of photographers at Caranrvon, where the general was speaking at an open air meeting, that they had to be repulsed. "Get down; get away," said the general to a photgrapher who had almost climbed into the motor car. Another photographer had climbed a ladder in the midst of the crowd.

I am never without it." Sold by W. M. Johnson.

Vets Will Get Pensions.

Montgomery, Ala., Sept. 3.—It having been said that the county pension boards would not have time to meet on the first Monday in September and get on all confederate veterans who have not been able to get on the lists, General Brandon, the state auditor, has sought an opinion from the attorney general, who states that the meetings can be held, and that all who get on the lists will be paid in October. The meetings are held particularly to aid those who have not been able to get two witnesses to service at which they will be allowed to make oral proof and have the roll take in their names.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop. Sullivan House, El Reno, O. It is the only remedy I have found that gives immediate relief." 25c, 50c and $1.00. Sold by W. M. Johnson.

PRICK OF KNIFE SAVED HIS LIFE

Man, Thought To Be Dead, Was Almost Dissected Alive.

Vienna, Sept. 3.—Johann Kovas, a railway station porter at Bicsar, in Hungary, has had a narrow escape from being dissected alive.

A few days ago he fell down unconscious while at work, and was taken to the hospital. The doctors pronounced him dead, and a post-mortem was decided on, for which all preparations were made, the body being put on the dissecting table, where a lecture was delivered over it to the students before the body was operated upon.

At the first prick of the knife Kovas awoke with a start, and as soon as he realized the position, endeavored to assault the surgeon who held the dissecting knife. He had to be forcibly restrained by the other doctors.

Piqua, Mo., Sept. 3.—When local freight train No. 37 of the C. He evidently had been killed but a moment before in attempting to alight from the train. The train crew says it saw a man get on at Sidney, and it is supposed that he was the one killed. The man was about 45 years of age.

COAST LINE SEEKS INJUNCTION.

Petition Against Lower Rate Filed in the Federal Court.

Atlanta, Sept. 3.—The reduction of passenger rates in Georgia from 3 cents a mile to 2½ cents, as ordered by the railroad commission, is to be tried before the federal courts having jurisdiction over the Atlanta territory.

The Atlantic Coast Line appears as the plaintiffs while the Georgia railroad commission is cited as the defendants, the personnel of the old commission as a part of the recently organized body is shown as the defendants.

The petition is a paper of length and is within itself a complete history of the litigation which has been obtaining for a month or more in North Carolina, Virginia, Alabama and other states where legislative enactments have led to a clash between the state and the federal authorities.

In other states, the issues here involved have been made acute by the refusal of the states and the federal courts have been made acute by the refusal of the states and the federal courts to grant the request for a temporary injunction restraining the granting of a stay of execution by some United States judge.

Two Killed by Motor Car.

Paris, Sept. 3.—Two fatal motor car accidents have occurred near Moulon and Evereux. M. Colin was motoring at Moulon when he swerved sharply to avoid an old woman named Pilet, who was driving a flock of geese. The car turned a complete somersault, falling into a ditch and crushing the life out of M. Colin. His wife has lost her reason and has tried to commit suicide three times since the accident. The driver of a car traveling at great speed near Evereux misjudged a curve in the road, and the car struck a tree and was wrecked. One motorist was killed and others badly injured.

Conyers Receives First Bale.

Conyers, Ga., Sept. 3.—The first new bale of cotton was brought to town and marketed Thursday by Elijah McDonald. The bale, which weighed about 400 pounds, was sold to the highest bidder by Sheriff Austin, at the corner of Center and Commerce streets and was bought in by W. J. Eakes, for the Milstead Manufacturing company, at 18 cents per pound. Cotton is opening rapidly all over the county, and the prospects for a good crop are cheering to every one.

New Banking Law in Effect.

Atlanta, Sept. 3.—The law which created a bureau of banking inspection in connection with the office of state treasurer has gone into effect, and hereafter all state banks will be required to make quarterly reports to the state treasurer instead of three times a year, as has been the law. State Treasurer Park is denominated as chief bank examiner, with a salary of $2,500 per annum for this service in addition to that of $2,000 received by him as state treasurer.

Bomb Kills Two.

Odessa, Sept. 2.—An explosion, resulting in the death of an artillery officer and a policeman and in five policemen being seriously wounded, occurred in the court yard of the central police station here Saturday. The artillery officer was examining a bomb recently found by the police and when he dropped it accidentally it exploded. All the windows in the neighborhood of the police station were shattered.

Big Receipts at Americus.

Americus, Ga., Sept. 3.—American warehouses have received 1,600 bales of cotton of the new crop up to date, doubling August receipts of last year. Saturday 600 bales were handled at the warehouses.

Washed Under a Raft and Drowned.

Evansville, Ind., Sept. 3.—While swimming in the Ohio river Albert Diedrich, aged 16 years, was thrown under a raft of logs by the waves from a passing steamboat and was drowned.

Attracting Attention.

"When ordering champagne some people are not satisfied with the pop of the cork."

"Why?"

"No; they think the waiter ought to fire a pistol."—Washington Herald.

Read Letter Days.

"Most people have red letter days once in a while," observed the pretty girl sweetheart, as she put the perfumed missive back in its envelope. "But every day is a read letter day for me."—Norristown Times.

The events of fortune are unexpected and therefore can never be guarded against by men.—Axionicus.

Keeping constantly at it is the key to successful advertising.

You cannot spurt much and win. A business career that goes by fits and starts will not pay so well in the long run as a business that follows a course mapped out for it and keeps increasing its advertising as the business demands it until the maximum is reached.
